Message Body

All,

Please ensure that all data is sent to PG so she can begin processing.

We need to keep moving forward as planned to make sure all goes well in the next 12 to 18 months with WM and LP. RB, we have been through this before and we always come out on top. By this time, 07, you will be retired and living West of Ohio. JV, please keep moving forward and keeping everything going as planned. RB will be in touch with you, via you cell, in the next few weeks. Please follow what he has planned. PG, please keep working with myself and JV to make sure we get in to the company as soon as this happens. We need control of everything before WM know what is going on.

We will all meeting in the next week or so to review and make sure the same happens to LTV.

Rudd.

Subject: Going as planned...

All,

I would like to inquire about the status of LP and LTV. I have a very large amount of money on the line and I want to make sure I see my payout. Both are setup with BVT and I will ensure the delivery of any and all data. Rudd, who will get the date and begin the process of bankruptcy?

Please update and inform all of the process

John
