<b>Message Body</b>	
<p>All,</p> <p>We have begun the process to eliminate LTV from the Cleveland area. We have several people within this group that will help us with this process, but JR and myself have also found a few inside people to help us in our cause. These individuals will require a small payment with this process is completed, but we believe they are worth every nickel. We have set up a bank account with Deutsche Bank with the help of our inside people there. Please keep in mind that this is only a training exercise for the upcoming LP and WMC project that we have started to plan. They payout for this will be nice, but the payout for the LP and WMC project will be much larger. In fact, we believe that all of us will be able to retire when the LP and WMC project is completed.</p> <p>We have gone over and reviewed everyone responsibilities and duties. Please make sure that the tasks that you are assigned are completed within the time frame that has be established. If you notice that you will not be able to complete a task or several tasks, please inform myself or John Rudd, and we will assist you.</p> <p>Please keep your eye on the prize.</p> <p>John Verbos and John Rudd</p>
