I believe that these were originally included in the "other" line item, but in our numerous discussions with Newmarket to attempt to drive down the costs, we must have reduced them out of the budget. Note that Parry Geitgey is adamant about this budget being overstated, even with the concessions. For tracking purposes we should include these as separate line items.

Do you know why these amounts were left out of the final budget?

Natasha,

Here is my budget. It needs to be noted that it was altered by New Market. What I did not notice when we went over the preliminary draft is they left out Michigan permits, New Mexico permits and parts needed for New Mexico only...

Thanks.
Jason
