All,

I know that it has been a few weeks since we all last spoke, so I wanted to update everyone on the upcoming plans. LTV will soon be sold off and when that happens, we all stand to make over 10 million apiece. Not a bad chunk of change for doing nothing but sinking a company.

Now comes our biggest challenge, LP. I know the company is very large and growing fast. JV is already working there and getting information we need to move forward. CD is "sleeping" with the enemy. She is also getting a lot of dirt on WM that she can use if he decides to open his mouth and fight this. And if a lie or two is told, who cares. We need to win at all costs.

I am reviewing the list of equipment that JV has requested to move data from LP to his network and the cost is high, but in the end, LP will pay for everything.

RB, I think this will go to court and if it does, we need you to shut the door in WM's face and not let him win. You will have the help of JV, CD, NCC, DB, B&F, and myself to make sure this happens. If for any reason you can't handle this, please let me know now so we can make other arrangements for another judge to oversee the case.

Ever since I met WM, I have wanted to take his ass down and make him pay for being suck a prick. I want his ass handed to him on a silver platter. And when this is done, we all will make millions off of him and never look back. As it stands now, we are in a good position to make all of this happen and by the time WM ever figures out what is going on, we will all be on a beach enjoying the sun. That is why we need to stick together as a team and fight him every step of the way. We have all the right person and the best plan in town to make this happen. Our goal is to stash and dash. I will be in touch soon with more instructions.
